*Help! I made the mistake of getting into a high-interest car loan and would love to find a way to re-finance this note. I've hit a dead-end with my bank. Is there any other lender that you might be able to recommend?*

Absolutely. The tighter federal regulations are making it tougher to get any type of loan, and favorable rates are a long-distant memory. JEZ has found that **Georgia's Own Credit Union**, a 76-year-old financial institution with locations all over metro Atlanta, has some of the most competitive rates on car loans, mortgages, home equity lines and Visa™ credit cards. Its secret? It's a not-for-profit, so earnings are returned back to its membership in the form of better rates, fewer fees and higher dividends. And, contrary to an old myth, you don't have to know the right people to become a member! For more info, check out its Web site at [georgiasown.org](http://georgiasown.org).
